

Proposed PE Spending Strategy Report 2023/24

School Principles for PE and Sport Premium Grant Spend

At Sunning Hill Primary School, we want all our children to develop a positive attitude towards Physical Education where our children develop an enjoyment of both competitive and non – competitive sport and they gain confidence and skills.

Physical Education is a practical subject which gives all children the opportunity to participate and succeed. We believe that PE experienced in a safe and supportive environment is a vital contribution to not only pupil's physical development but also positive mental health and well-being.

Our school is situated in an area with limited space and greenery therefore we aim to maximise all times of the school day to promote physical fitness. Only a limited number of our children attend any out of school sports clubs therefore we provide a wide range of extra-curricular clubs which are mainly accessed before school as our children have other commitments after school. To develop competitive sport we attend a range of competitions which are facilitated by school which includes transportation to and from venues.

At Sunning Hill Primary School we will measure our grant against the following key indicators:

Key indicator 1; Increase the engagement of all pupils in regular physical activity

Key indicator 2; Raise the profile of PE and sport across the school as a tool for whole-school improvement.

Key indicator 3; Increase confidence, knowledge and skills of all staff in teaching PE and sport.

Key indicator 4; Offer a broader experience of a range of sports and activities to all pupils.

Key indicator 5; Increase participation in competitive sport

The PE Spending Grant for 2023/24 is £19,630.

Key Indicator 1 - Engagement of all pupils in regular physical activity
